## PP(Polypropylene) STRAPPING

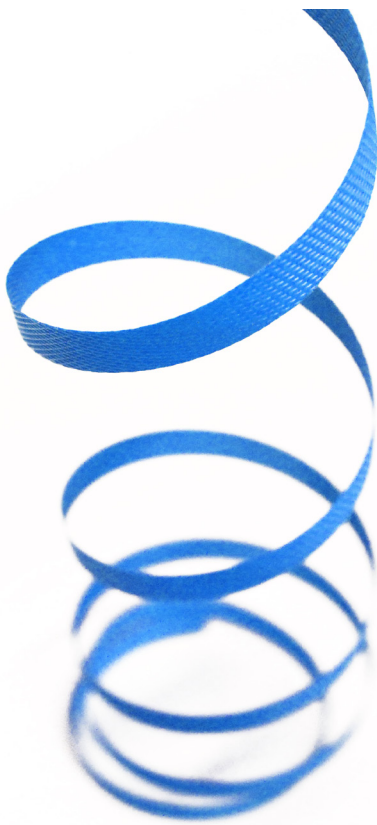

OVR PP(Polypropylene) Strapping is...

OVR PP Strapping is anybody easy and can use safely for packaging and inexpensive, good quality packaging material which allows precise and safe packing of any materials and their fastening.

Also has great cost savings on subsidiary materials by relatively high tensile strength and low thickness for use light packaging.

Specially, PP Strapping can be used for normal carton box and soft materials packaging.

First of all, OVR PP Strapping has various specifications strapping so that can use to any type banding machines as well as manual pack.

### Feature

- Best ideal for application of light weight and medium-duty package.
- Clear performance on any type's banding machines
- Work is possible manually without banding tools by hand buckle.
- Keep strap tight by uniform surface treatment.
- Most economical strapping in the other plastic strapping.

### Functional Advantage

- Relatively strong tensile strength.
- High stiffness and curvature free.
- Precision winding for banding machine.
- Diamond type embossing treated on surface.
- There is no edge's fluff phenomenon by detailed process.

## Specification of OVR Polypropylene(PP) Strapping

### ■ Auto Machine Grade

-Superior in Uniformity, Straightness, Breaking Strength

No.	Width	Breaking Strength	Length	Elongation	Color
RA9	9mm	110 Kg ↑	4000m	17%	Yellow, Red, Blue, Black, Clear, White
RA12	12mm	140 Kg ↑	3000m	17%

## Machine, Manual Tools and Metal Seals for Polypropylene(PP) Strapping

### ■ Auto Machine

DE-900AD / Auto Desk Type Machine

As the lubrication is needless, this standard model is easy to handle even for an unskilled person.

It takes 1cycle per 2sec. and is optimum for divers working conditions.

It is an automatic packing machine, able to change and control the arch for different packages.
