Protective Film

OVR Protective Film Tape

OVR Protective film tape is premium-quality tapes and surface protection tapes and films designed to suit a broad range of specialized applications, and our Protective films and Protective tapes will provide surface protection to any material and save on costs.

Surface Protection Film Features

- Abrasion Resistant
- Chemical Resistant
- Scratch Resistant
- UV Resistant
- Custom Colors
- Printing
- Custom Widths & Lengths
- Custom perforation

Protective Film Adhesives

Adhesives are available on our surface protection films, such as rubber and acrylic allowing for a residue free surface.

Protective Film Applications

OVR surface protection films are engineered to withstand the most abrasive and various physical affect conditions. Our protective films are used as:

- A scratch resistance surface on automotive parts, electronics, steel, and glass materials
- Protective film used for touch screen, membrane switch and electronic display surface protection
- An abrasion resistant overlamine for signage and display applications
- Protective film for LCD, plasma and other flat screen displays
- UV protective film for solar and photovoltaic uses
- Adhesive protective film
- Scratch-resistant overlaminates for printed labels

Application : Electronics, Mobile Phone industrial
